

People and things both may
fall apart. **To me that's beautiful.**

For some reason, people
leave their trash in odd
places.

Is it art...

...or just placed trash

All mattress is neither
created nor destroyed

Home away from home

Each of these images depict
urban decay found on or around
San José State University.

Maybe it's just abandoned
shit.

Maybe people
who make a
mess
are just a little...
are just a little...

Maybe people
who make a
mess
are just a little...

Glitch and urban decay,
